MATHEMATICS SUMMER PACKETS

End of Grade 7 Entering Grade 8

STUDENT NAME: _____

SCHOOL: _____

rev. 4/25/25

Dear Future 8th Grader,

Success in 8th Grade Mathematics begins with a solid foundation in the skills and concepts you learned in 7th Grade and elementary school. These are essential for understanding new topics and solving both mathematical and real-world problems.

This summer, we encourage you to review and strengthen these foundational skills. The provided packet includes key practice problems and links to online resources. Work on a few problems each day, use the resources if needed, and don't hesitate to seek help from friends, family, or additional tools.

Your completed packet is due when you return in August. Teachers will review these prerequisite skills and assess your understanding early in the school year. Learning math is like building a house—strong foundations are critical for growth. Strengthening these basics now will set you up for success.

We hope you not only excel in math but also enjoy discovering its beauty. Have a wonderful summer, and come back in the fall ready to aim high and believe in your potential!
