ASBESTOS MANAGEMENT PLAN

The Federal Regulation "Asbestos Hazard Emergency Response Act"(AHERA) requires that the Local Education Agency (LEA) notify parents annually of the availability of the Asbestos Management Plan (AMP). The AMP is a file containing each school building's "asbestos history". The file is located at the main office in each school building. You have the right to look at the AMP.

There is Asbestos Containing Building Material (ACBM) in nearly every school building. The AMP file has information on the location of the ACBM, records of asbestos abatement projects, 3-Year Re-inspections, periodic surveillance, Asbestos bulk-sampling results, employee 2-hour awareness training, Material Safety Data Sheets (MSDS) and my credentials as Designated Person. The buildings are inspected every six months to determine any changes in the condition of the materials. Also, the buildings are thoroughly reinspected every three years by a licensed asbestos inspector. These inspections are designed to ensure that our schools are safe at all times.

Daniel Gilhuly
Asbestos Designated Person

Notificación Anual a los Padres
2022/2023

PLANES PARA EL MANEJO DEL ASBESTO

El Acta Federal del Reglamento "Asbestos Hazard Emergency Response" (AHERA) requiere que anualmente la Agencia Educativa local (LEA) le notifique a los padres sobre la disponibilidad del Plan de Manejo del Asbesto (AMP). Este plan (AMP) está en una carpeta que contiene el historial de cada edificio escolar. Usted tiene el derecho a revisar este plan (AMP) cuando quiera.

Hay material de construcción que contiene asbesto (ACBM) en casi todo edificio escolar. La carpeta del plan (AMH) contiene información de la localidad del ACBM, los récords de los proyectos para la disminución del asbesto, las re-inspecciones de cada tres años, la vigilancia que se lleva a cabo de manera periódica, las muestras de los resultados de asbesto en volumen, récord del adiestramiento de 2 horas para concientizar a los empleados, hojas de información de material de seguridad (MSDS) y mis credenciales personales como la persona designada para este asunto. The buildings are inspected every six months to determine any changes in the condition of the materials. Also, the buildings are thoroughly reinspected every three years by licensed asbestos inspectors. These inspections are designed to ensure that our schools are safe at all times.
